

Group 9

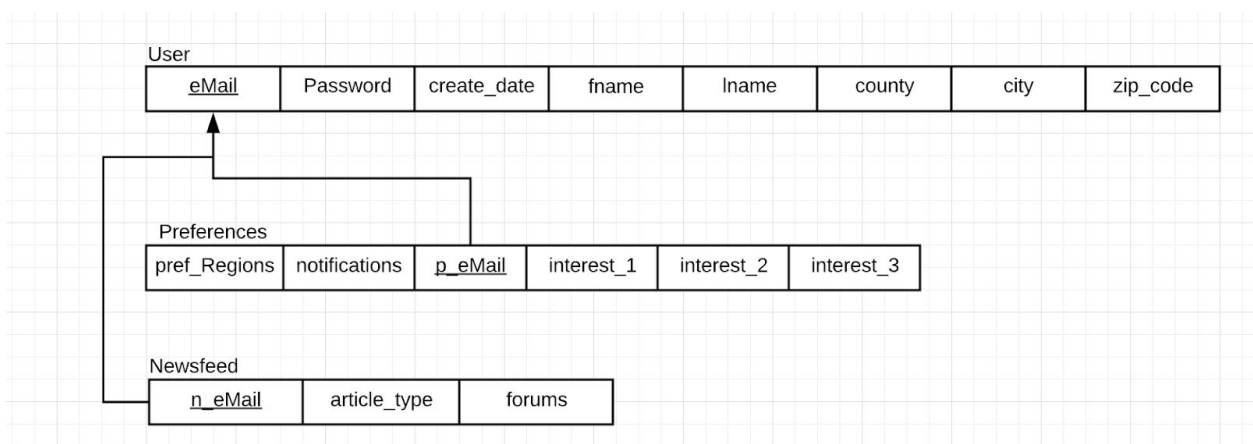

315: Julian De La Cruz, Alhassane Traore, Adam Mellan, Amulya Badineni

Stage III - Elaboration: Database Model

ER Diagram:

Relational Schema:

Initial Database Size:

The initial database size will be approximately 5 tuples for user accounts in order to perform tests.

Types & Average Number of Searches:

Types of searches will include looking up user emails as well as their preferences which will be used to populate their customized home page.
